

Interactive Efficient Aggressive

Model Portfolio Factsheet As of 2025/12/31

Portfolio Information

Inception Date	2015/08/01
Base Currency	Rand
Client Need	High Growth
Risk Profile	Aggressive
Benchmark	(ASISA) South African EQ General
Investment Period	8 years or longer
Platform	Momentum, Ninety One, Allan Gray

Risk Profile

This portfolio is suitable for investors who seek to achieve long-term capital growth. These investors have an investment time horizon of eight years or longer and are willing to tolerate periods of high market volatility and the risk of capital loss over the short to medium term, in exchange for maximising long-term capital growth. This portfolio mainly consists of growth assets such as equities (stocks) and should therefore be seen as a high-risk strategy.

Investment Objective

The model portfolio is suitable for an investor with discretionary funds. The investment objective is to provide a high level of capital growth over the long term by having exposure to a diverse range of local and global equities over a full market cycle. Investors in this portfolio are prepared to tolerate high fluctuations in the value of their investment over the short term. The portfolio maintains a high allocation towards equities (minimum of 90%) and a limited exposure to foreign assets (maximum of 45%). Investors in this portfolio have a investment horizon of 8 years or longer. The portfolio is not compliant with Regulation 28 of the Pension Funds Act, 1956.

Manager Strategy

The portfolio is managed according to a long-term strategic asset allocation policy and blends active and passive strategies to increase diversification. Strategic asset allocations are rebalanced quarterly. The portfolio allocates funds with multiple strategies (quality, conviction, and market-weighted index funds). Underlying funds have a diverse range of correlations with the aim of improving risk-adjusted returns over a long-term horizon.

Annual Investment Management Fees - (Incl VAT)

Annual Report Net Expense Ratio	1,60
Discretionary Management Fee	0,35

Charges relating to the underlying portfolios are included in the TER and TIC, and these are payable within the underlying portfolios' NAV. **Underlying Funds TER:** The weighted-average of the Total Expense Ratios (TER) of the underlying portfolios. Each fund's TER represents the fund's charges, levies and fees. A higher fund's TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER should not be regarded as an indication of future TERs. **Underlying Funds TIC:** The weighted average of the Total Investment Charge of the underlying portfolios. TIC represents the fund's TER plus brokerage, securities transfer taxes and STRATE levies.

Disclaimer

Interactive Portfolios (Pty) Ltd is a licensed financial services provider (FSP Licence No. 44371) regulated under the Financial Advisory and Intermediary Services Act, 2002 ("FAIS"). The information contained in this document has been compiled in good faith from sources believed to be reliable. However, no warranty, express or implied, is provided as to the accuracy, completeness, or correctness of such information. Performance figures represent net (after-fee) returns of the underlying funds but are quoted gross of wrap fund fees. Past performance is not necessarily indicative of future performance. Fluctuations in exchange rates may cause the value of underlying investments to rise or fall. The value of investments and any income derived from them can decrease as well as increase, and returns are not guaranteed. The information is provided for general information purposes only and does not constitute financial advice as defined under FAIS. Clients are encouraged to consult a qualified financial adviser before making any investment decision. Interactive Portfolios (Pty) Ltd, its shareholders, directors, employees, agents, and affiliates accept no liability for any direct, indirect, or consequential loss arising from the use of, or reliance on, any information provided herein. From time to time, Interactive Portfolios (Pty) Ltd may include its own unit trusts in model portfolios. These funds are only selected where they are objectively determined to be appropriate and suitable in meeting the portfolio's stated investment mandate and objectives. The same selection and due diligence process is applied to all funds, internally or externally managed. In accordance with the Conflict of Interest Management Policy required under FAIS, Interactive Portfolios (Pty) Ltd discloses that it may earn fees both from the unit trust (as a manager or co-manager) and from the model portfolio (as a discretionary fund manager). As such, any fees earned from the inclusion of proprietary unit trusts will be earned in addition to the model portfolio (wrap fund) fee already charged. These arrangements are governed and monitored in line with applicable regulations to mitigate and manage any actual or perceived conflicts of interest. The weighted average Total Expense Ratio (TER) of underlying funds is calculated using the most recent TERs and static asset weightings, and is subject to change as portfolio compositions change. Transaction Costs (TC) will similarly fluctuate. Intermediary LISP platform, and stockbroker fees are client-specific and are not reflected herein. Performance data may include back-tested results, which simulate historical returns by applying the investment rules retroactively. While these simulations are constructed using objective methods, they are hypothetical in nature and may not reflect actual future returns. Back-tested results should not be regarded as indicative of future performance. Further details regarding the back-testing methodology are available upon request at info@interactiveportfolios.co.za. Model portfolios consist of underlying Collective Investment Schemes registered with the Financial Sector Conduct Authority (FSCA). Wrap fund fees are not included in the back-tested returns presented. Minimum Disclosure Documents (MDDs) of the underlying funds can be obtained from the relevant fund managers. **Interactive Portfolios (Pty) Ltd FSP 44371.**

Investment Growth (Net of Investment Fees)

— Interactive Efficient Aggressive — (ASISA) South African EQ General

Investment growth is net of total investment costs (TIC), but gross of LISP Fee and Advice Fee. The Solution launch date is 14th June 2022, and any performance prior to this is modelled using actual historical returns of the underlying portfolios as at inception and rebalanced quarterly for illustration purposes. For more information back-testing methodology, please contact info@interactiveportfolios.co.za
